Letter from the Principal

To The Members of the Class of 2010:

Can you believe that the first 13 years of your formal education are over?? Maybe now you have a better appreciation for the times that your parents have told you to enjoy it, as it all goes by "in the blink of an eye!"

It has been a remarkably successful ride for your class, as this class is second to none academically, athletically, and in social and civic-mindedness. You have distinguished yourselves in an exemplary fashion both in and outside the classroom. Your academic achievements, such as the high MCAS scores, high AP participation rates and scores, and the number of National Merit Scholars, are outstanding. You have also impressed the community with your accomplishments on the athletic field, in music and drama, and in numerous extra- and co-curricular activities, as evidenced by numerous league championships, and state championships. I don't think we will soon forget those two championship basketball games in the TD Garden anytime soon! Furthermore, you have demonstrated commitment to giving back to the community through opportunities such as Relay for Life, the annual Katrina Relief Trip, and the Great American Clean-Up of Mansfield to name just a few. Through such experiences you clearly "get it" are living the words of wisdom that Ben Franklin once offered, "When you are good to others, you are best to yourself."

Congratulations to the Class of 2010! On behalf of the faculty and staff, thank you for all that you have contributed to our school community. We are proud of you and wish you nothing but the best as you move forward in your post-secondary education and careers. May you all continue to reach the high levels of success and accomplishments that you have earned at MHS!

Cordially,

Dr. Joseph Maruszczak

Principal

"Live like you're gonna live, live like you're gonna die. Moments are precious. Yesterday is history, tomorrow is a mystery, today is a gift, that's why it's called present."

-Mr. Modica

This yearbook is dedicated to

Tony Modica,

the teacher "Best Fit" to inspire us all

Mr. Modica has been a teacher who practiced what he preached. He has not only taught, but also demonstrated to his students that every day is filled with opportunities, optimism, and is a step closer to achieving goals. Whether it's a struggling student, a stranger, faculty member or the school genius, Mr. Modica always has words of inspiration to motivate anyone. After 28 years of teaching he has left a legacy at Mansfield High School. This includes countless students who have used his words of wisdom to excel in their daily lives. We wish Mr. Modica the best of luck with the rest of his journey through life.

In 1998 my college roomate and I drove from Portland, Oregon to San Diego then on to Boston in a '78 Volvo Station wagon....we broke down 4 or 5 times in 12 days!

It seemed like horrible luck at the time but now I think, what an amazing adventure we had!

During my time here at Mansfield High School, I have had the opportunity to be the lead teacher in the European Travel Club. We have had some wonderful trips over the years. The below picture came from our 2006 tour to Munich, Switzerland, and Paris. Mr. Fisher and I are on a "monoski" going down a steep hill on top of Mt. Titlis. What a view and such a treat to be "skiing" in July.

One of my favorite memories of traveling in Spain with the exchange group was our trip to Segovia to see the aqueduct. It had been 95 degrees the day before, so we dressed for more sunshine. But, Segovia is known for being cold!! Who knew!? So, Chris Ready and I bought these jackets to keep us warm! Such fashionistas!

Still sometimes we have to see for ourselves. We have to make our own mistakes. We have to learn our own lessons. We have to sweep today's possibility under tomorrow's rug until we can't anymore, until we finally understand for ourselves. After already being new to MHS my junior year, I wasn't sure how this year # 5 would go. I felt like I was a new kid all over again, but thanks to everyone I've met and all my friends I feel like I've been in the class of 2010 all along! I've learned that doing things differently than 'everyone else' is fine, and that being me is the best thing I can do. Most importantly I've learned never to give up no matter what people tell you is unlikely or impossible. Thanks to all my friends, teachers, and everyone else who got me through these 5 years. Hopefully I'll be off to art school soon. It's funny how things work out, but I know it all happens for a reason-and I live by that. We're expected to know what we want to do with our lives.

where we want to go.

WHO we want to be.

It's like our FUTURE is supposed to be pre-determined.

our parents, our friends
our relatives
tell us what we're GOOD at our whole lives.

It's time to leave that behind

Focus on your desires.
It's your life—

[CONTROL IT.]

You decide your future. Don't do what they want; you need to

FOLLOW your own individual road.
Make your own Path.

Just because you're part of a larger group

doesn't mean you need to CONFORM to it.

Travel down your own open road.

Find the open road.

Watching the carnival atmosphere from my kitchen window over the years has been a constant source of entertainment to me. The mischief and the comedy made me smile. So, when the time comes and you've all moved on I will mourn in silence the absence of your commotion... the slamming of the doors... the jingle of the candy jar lid and of course the laughter. My front door will always be open to you all,

Love Ma Roberts
